more meager than we expected on Saturday night, consequently our first page, this morning, presents a slimmer appearance

of the Council on Saturday night.

WINCHELL was greeted with a large crowd on Saturday night, and he sent them away with a new lease on life from the hearty laughter they enjoyed. He is one of the best delineators of character we ever saw perform. He makes use of but few " clap trap " appurtenances to help carry out the delusion. His face and whole person is so completely under his control that he stands before you one moment, the old Irish woman of New York, with a child in her arms, begging from the passers by, and on the next, the "Bowery boy," "spilin' for a muss." His ventriloquism is good and adds greatly to his entertainments.

To-night MR. WINCHELL gives a benefit for the Sons of Malta: One-half of the proceeds are to be placed in the hauds of that charitable Institution, where it is well applied. We trust the Hall will be filled to its utmost capacity.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use.—When once tried, its superiority over every other medicine of its kind, is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community leave failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be for gotten.

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Agne. Such a remedy we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity. now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patienteespes the risk which he must run in violent attacks of this baleful distemper.—This "Cure" expels the missmatic poison of Fever and Agus from the system and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in billious districts where Fever and Agus prevails, every body should have it and use it freely both for cure and protection. It is hoped that this price will place it with in the reach of all—the poor as well as the rich. A great superiority of this remedy over any other discovered for the speedy and certain cure of Intermittents is, that it contains no Quinins or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution.—Those cured by it are loft as healthy as if they hanever had the disease.

Fever and Agus is not alone the consequence the missmatic poison. A great variety of dilent ders arise from its irritation, among which Neuralgia, Rhaumatism, Gout, Headache, B tess, Toothache, Earache, Catarria, Asthma, Pake, tation Painful Affection of the Spleen, Hystemeb Pain in the Bowels, Colic, Paraiysis, and Dera ment of the Stomach, all of which, when origit we ing in this cause, put on the Intermittent types at become periodical. The "Cure" expels the poi. 20 from the blood, and consequently cures them alike. It is an invaluable protection to imms grants and persons traveling or temporarily residing in the malarious districts. It taken occodonally or daily while exposed to the infecton, than
